REAL GEAR FOR REAL GAMERS

IMMERSA

Main features

Impressive Sound Quality

Endowed with advanced 40mm Neodymium magnet drivers available on the market and the ability to produce high quality stereo sound with excellent bass and treble performance. IMMERSA will allow you to fully immerse yourself in gaming or delight your ears with crystal clear music, while its big ear pads will provide isolation from external noise.

Total Comfort

COUGAR IMMERSA's unique suspended leatherlike headband design allows you to reach new levels of comfort. Built with carefully chosen materials, IMMERSA's ultra lightweight will allow you to wear it for extended periods of time without experiencing any kind of discomfort. The 100mm ear pads will always keep your ears comfortably covered and isolated from external noise. To fit all head shapes and sizes, IMMERSA's flexible structure and automatic omni-directional adaptation will allow it to perform a 360° adjustments to maximize your comfort.

CONSOLES

High Adaptability

IMMERSA comes with a 4 pole connector that will allow you to use with laptops, phones, tablets and other devices. When the time comes to connect it to a desktop computer, an adaptor will allow you to separate the audio into two 3 pole connectors for audio input and output. Add to this its retractile microphone that appears or disappears according to your needs and you have a headset that will provide exactly what you need when you need it.

IMMERSA

Detailed Features

High quality stereo sound

Exactly what you need to the vast majority of audio media on the market. With a superior bass performance and clear trebles, IMMERSA delivers exactly the experience you need for gaming.

40mm Neodymium magnet driver

IMMERSA's 40mm Neodymium magnet driver will provide crisp and clear audio for your games.

Ultra lightweight suspended leatherlike headband design

With carefully chosen materials that reduce weight without sacrificing durability, the IMMERSA's hanging leatherlike headband design allows you to use it for extended periods of time without experiencing fatigue and minimizing the physical contact of the headset's hard parts with your head to improve comfort.

100mm extra-large ear pads for more isolation and comfort

COUGAR has not skimped on good quality materials, and IMMERSA's 100 mm ear pads are proof of it. Built with a leatherlike material for extra comfort, their extended surface will always keep your ears covered, guaranteeing excellent sound isolation and comfort.

Automatic Omni-Directional Adaptive ear shells

IMMERSA's extra-large automatic omni-directional adaptive ear shells will adapt their position automatically with 360° adjustment, guaranteeing a perfect fit in all situations.

4 pole to 3 pole adapter for extra compatibility

The included 4 to 3 pole adapter will allow you to use IMMERSA with virtually any device, including laptops, phones, tablets and desktop computers.

Retractable microphone: Flexible, convenient, durable and does not get lost

IMMERSA's retractable microphone is always where you need it to be. When you're gaming, you can locate it near your mouth for optimal sound quality. When you don't need it, you can simply retract it back to make sure it doesn't get in your way. This, united with the microphone's high flexibility, not only makes it more convenient, it also strongly enhances its durability.

Noise Cancellation Technology

The microphone's advanced design makes use of several noise cancellation technologies that help it filter out background noise and make sure that your voice is transmitted clearly.

Control unit on the cable with volume control and microphone on/off functions

A conveniently located control unit will allow you to easily adjust volume and mute the microphone when needed, the two functions more often required for gaming.

Braided cable for extra durability

A highly resistant braided cable will enhance the device's durability, exactly what you need for a highly portable device such as IMMERSA.
