## NEW RUGGED DESIGN GAMING MIDI TOWER

- Combination of rugged elements consisting of honeycomb and mesh intake designs
- Sufficient flexibility for multiple graphics solutions up to 310mm
- Enlarged cable management space for easy routing and hiding cables, and provide a better airflow and neatness of system building
- Superior expandability: up to ODDs (tool-less) x 2, 3.5" HDDs x 3 and 2.5" SSDs x 3
- Tool-less mechanisms on 5.25" devices
- Advanced USB3.0 ports for maximum data transfer speed and high current smart phone and tablet charging
- Best ventilation solution, support up to 7 fans:  
front 120mm fans x 2 / top 120mm fans x 2 / rear 120mm fan x 1 / side 120mm fan x 2
- High quality and game-style interior black coating
- 7 PCI slots provides flexibility for multiple graphics cards solutions
- Installation opening in the MB tray for easy upgrade CPU cooler
- Vented slot covers for better cooling performance
- Air filter on the bottom, top and front to prevent dust from entering the enclosure
- Transparent side cover design

Case Type	Middle Tower
Motherboard Type	Micro ATX / ATX
Dimension	195(W)x450(H)x490(D)
5.25" Drive Bay	2 Exposed
3.5" Drive Bay	1 ( Ext ) / 3 ( int )
2.5" Drive Bay	3 Hidden
I/O Panel	USB3.0 x 1 ( int )/USB2.0 x 1, Mic x 1, Audio x 1

Cooling System Max Installed: 7pcs Fans	Front	120mm Fans x 2
	Top	120mm Fans x 2
	Rear	120mm Fan x 1
	Side	120mm Fan x 2
Expansion Slots		7
Maximum Graphics Cards Length		310mm
Power Supply		Standard ATX PS2 ( optional )
