PANZER-G

Tempered Glass Gaming Mid-Tower

Looking for an attractive, modern-looking case that manages to house all the high-end components you need for gaming? Look no further; you have it in Panzer-G.

Remaking the Idea of PC Case

With Panzer-G, COUGAR is driving the evolution of mid-tower cases towards a more modern, elegant and attractive direction that shall become the new standard for this format in the following years. Combining a tall body that can enclose all the components a gamer needs while keeping a slim shape, four massive tempered glass covers and three of the new Vortex LED fans with circular lighting,Panzer-G stands above all other cases.

New-Generation Vortex LED Fans

To enhance both the cooling capabilities and the aesthetic uniqueness of the case, new-generation Vortex LED fans have been included.
Their unique circular lighting pattern produces an elegant shape that distinguishes them from ordinary LED fans, while their Vortex airflow pattern focuses all the cooling on your key components. To further enhance their durability, anti-vibration pads have been added to its base, guaranteeing you great-looking cooling for a long time!

PANZER-G

Tempered Glass Gaming Mid-Tower

Incredible Cooling

Panzer-G comes with three Vortex LED fans that, apart from their impressive red circular lighting, have as well incredible cooling capabilities due to their ability to focus the airflow they produce. If you add to this that the case supports up to 4 water cooling radiators and eight fans, you get a PC housing with the potential to banish overheating once and for all.
