VORTEX ^{RGB} SPB 120 PWM HDB LET IT SHINE!

REAL GEAR FOR REAL GAMERS

REAL GEAR FOR REAL GAMERS

PWM MAXIMIZE COOLING, MINIMIZE NOISE

The Pulse-width Modulation technology allows the motherboard to control the fan through its 4-pin connector and optimize its speed (in a range that goes from 600 to 1500 RMP) while keeping a 12V operating voltage.

EXCLUSIVE VORTEX DESIGN

Enjoy a focused and powerful airflow directly to the key components of your computer with Vortex RGB's patented design.

OMNIDIRECTIONAL LIGHTING

360° of gorgeous lighting effects come to your case with COUGAR's most potent RGB fan lighting ever. The dual lighting circle of the fans combines with the semi-translucent fan blades to ensure that you can visualize the lighting effects from any angle.

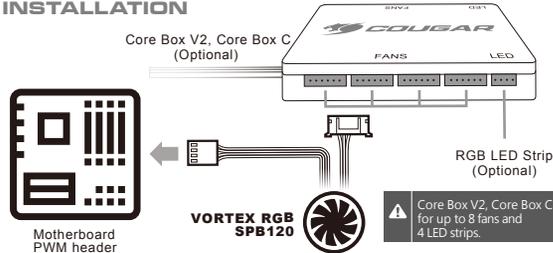

FAN SUPPORT FOR 5V ADDRESSABLE HEADER

An included adapter allows you to connect the fans directly to the 5V addressable header of compatible ASUS or MSI motherboards.

* Please note : Only 5V addressable header from compatible motherboards are supported; please do not connect the fan to a 12V Non-addressable header.

⚠ This product can only be used connected either to Core Box V2, Core Box C or a 5V addressable header from a compatible motherboard.
